

## Desktop Version Animation-ish System Requirements

**Animation-ish is now available as an online creativity tool. The information below relates to our legacy, downloadable version.**

### PC

- Microsoft® Windows® 7 or later
- 800 MHz Intel® Pentium® III
- 256 MB of RAM
- 100 MB of available hard disk space
- 24-bit color display capable of 1024x768 resolution
- Video card supporting Direct3D or OpenGL
- Wacom® Tablet (Recommended)

### Mac

**Please note:** Due to the update in Apple operating systems only supporting 64 bit software, you may experience issues running Animation-ish 1.2.

- PowerPC G5 (Minimum) or Intel® Core™ processors (recommended)
- Mac OS X 10.4.x to Mojave
- 512 MB Ram (Recommended), 256 MB (Minimum)
- 120 MB of available hard disk space

You will need an internet connection if you are going to explore the Lessons section of the program. While a drawing tablet is not required and you can have plenty of fun using the mouse with *Animation-ish*, having a drawing tablet will help you increase your enjoyment. Drawing tablets have become very affordable recently so do investigate using one. Wacom makes very good entry level drawing tablets.
